# Liver

The highest-quality, most potent and effective form of milk thistle extract available, standardized to 80% silymarin and with a naturally balanced concentration of active principles. To this premium liver protectant are combined seven high-quality ingredients well known for their beneficial properties on the liver.

**Liver** formula supports the liver's ability to maintain normal functions. The nutrients in **Liver** have shown positive effects due to their ability to inhibit the impact and intensity of factors responsible for liver damage. These plants have tonic properties aiding the spleen, pancreas, and kidneys. They act as potent antioxidants, inhibiting lipid peroxidation in liver cells. These plants also contain water-soluble peptides rich in methionine; this sulfur-containing amino acid has strong antioxidant properties that contribute to a better detoxification of the liver, aiding it in its rejuvenation process.

We've formulated **Liver** so that your liver can continue working unhindered, thus bringing you more vitality.

#### Each vegetable capsule contains:

Milk thistle ( <i>Silybum marianum</i> ) seed extract, 80% silymarin .....	250 mg
